Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC.

In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF).

The Universal Service Fund is merely another method of wealth-redistribution: Karl Marx wrote of this extensively. I am morally and ethically opposed to this, and it goes against every precept upon which this country was founded. I do not pay this charge for my home phone; did not pay it when I had another wireless carrier; and have no intention of paying it now.

When I see the phrase "fair share," my antennae go up. There is no justification for my--or anyone's--underwriting others' use of wireless service. However, since this is labeled "the Fair Share Plan," I ask that you endorse it, and give good thought to what I've written.

Thank you; again: congratulations on your new position.
